COP / POPs Declaration

Regulation (EU) 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants (POPs) establishes restrictions and prohibitions applicable to the substances listed in its Annexes. ISC declares that it does not use or intentionally add substances classified as persistent organic pollutants (POPs) at any stage of the manufacturing or treatment process of its products.

According to the available information on the composition of our products and the information received from our suppliers, substances regulated as POPs are not present in the products supplied by ISC at concentrations exceeding the limits established by Regulation (EU) 2019/1021, its Annexes and its amendments currently in force.

The information provided by ISC does not release the customer from its duty of due diligence. The customer remains responsible for any consequences arising from the use of the products purchased.

Any substantial change affecting the above-mentioned procedure or the legislation currently in force in this matter will be duly notified.

Barcelona, September 2026
Francisco Dominguez
Quality Manager

IMPORTANT: this declaration is based on the information received from our suppliers, ISC Plastic Parts will assume no responsibility for the validity of the information.
